Hey Taylor,

My name is [redacted] and I live at [redacted] which backs right up to the homeless encampment along Penmar Golf Course on [redacted]. As I'm sure you're aware, things have only escalated since our meeting with you and Adrian the Chief of Police. I had some questions regarding this strip of land.

1. Who owns that strip of land? Does the city own it? Does Cal Trans own it?
2. You mentioned you had success beautifying a piece of land on Venice Blvd. What company did you use to do that and who financed that project?
3. What was the name of the representative who organized the town hall meeting? A few of us would like to start an email chain amongst ourselves so we could provide info, advice, etc to our neighbors. Anyone who was at the town hall gave their email clearly wants to be involved in a plan to help the situation.

I've ccd a few fellow neighbors as I know they are eager to have these questions answered as well.

Thank you,

Taylor Bazley <taylor.bazley@lacity.org>

Hi,

It is public right of way exactly similar to a sidewalk or parkway.

The Venice Blvd. example I helped permit and secure a substantial public grant as well as fulfill some tree trimming but didn't directly contract - a community partner was the project coordinator. Usually community partners would lead a community beautification and I support that. In this case I have been supportive of helping to design the hardscape plan for [redacted] (see attached), get it permitted (at cost to the City), help figure out the organization of the plan, and have offered fanatically to assist with fundraising and grant making.

The East Venice Neighborhood Association organized that meeting - their board is meeting to discuss taking up the proposal for hardscape improvements.

Saul and the EVNA are CCed here - I am sure they would love the offer to help make this proposal a reality.

-Taylor

Hey Taylor,

Thanks for your speedy response and for your assistance in getting this project off the ground! I've been in touch with Saul and I'm aware that he got a bid from a company who could start the process which is really great. I know he's been working hard on this. It seems the next stage is fundraising for this project and I wanted to help initiate that process. You mentioned you'd be willing to help us fundraise which is great! Thank you!

So it sounds like we have the plan and the permit and are just waiting on the board of the EVNA at this point to approve the proposal? After its approved we should be able to start fundraising right? Just trying to understand exactly where we are at this point so I can help be point of reference for my neighbors.

Once things are ready to go I was hoping that we'd be able to send out a mass email to all of those who were at the community meeting. If you or the EVNA has access to that it would be enormously helpful.

Thanks again!

Allison

We are just waiting on a fiscal receiver and that is the main function I think people envisioned the EVNA fulfilling but otherwise you don't need to wait on some sort of vote or anything.

Absolutely to helping fundraiser - let me know the plan. If it is an event we will be there, if it is an email campaign we will send around the email, if it is a phone campaign i'll bring a crew to make calls. You call the shots and I will enthusiastically support.

Saul, no need to shoulder the responsibility of this all on your own! Myself, and Taylor are all here to help and fundraising I think will be a cinch. A go fund me page is a great idea. I am happy to look into it and perhaps work with one

City of Los Angeles Mail - Hi. Met you at the Venice Town Hall

of you on the look, wording etc. Additionally an email or a flyer to everyone in the area letting them know about the go fund me would be essential! Happy to help with all of this!

Lastly, I was wondering what your thoughts were on partnering with an outreach program to try to help, or place, or give support to those affected who will be uprooted. Perhaps they can see if anyone wants/needs help before the project starts.

Thank you Saul, Thank you Taylor! Appreciate everyone's attention to this matter and think everyone in the community will be so appreciative!
